

**World LNG  
Summit & Awards**  
9-12 December 2024  
Hotel Adlon Kempinski Berlin | Germany

Achieving the balance  
between energy security  
and decarbonisation

#WorldLNGSummit | [www.worldlngsummit.com](http://www.worldlngsummit.com)

Organised by **dmg::events**

---

*World Energy Exchanges with **Agnieszka Ason, Senior Visiting Research Fellow,  
Oxford Institute for Energy Studies; Principal, Ason Energy***

---

- **What are the biggest trends impacting LNG in 2024 and how should the global industry respond to them?**

The growing role of regulatory requirements - as exemplified by the adoption of the EU Methane Regulation - is the most significant recent development in the business, which has had little exposure to the reality of regulatory intervention, but will need to learn how to navigate it to sustain growth in the coming years.

- **How do you see the LNG sector evolving in the next ten years?**

The LNG sector has a key role to play in a decarbonising world, and the industry's ability to prioritise transparency and mitigation of GHG emissions will be one of the key factors in ensuring the long-term prosperity of the business.

- **What are you most looking forward to at this edition of the World LNG Summit & Awards?**

Hearing industry leaders' insights on their perception on market dynamics.

In terms of a specific session - I'm most looking forward to the discussion on financing global infrastructure development.
